arm Training

An introduction to ArmNN

Summary
At the end of this course, delegates will be able to

- **Describe** the Arm Machine Leaning SW architecture
- **Explain** the structure of ArmNN
- **Build** and use ArmNN

Prerequisites:

Some background knowledge about Machine Learning.

Audience:

Engineers who are working on Machine Learning projects and plan to use ArmNN in their projects.

Length:

2 hours

Modules:

Introduction and ArmNN Courses

- Machine Learning Introduction
    - o What is Machine Leaning?
    - o Arm ML SW Architecture
    - o ML Support in Mali GPUs
- ArmNN
    - o Introduction
    - o How to Build
    - o Structure
    - o Model Builder Simple Example
    - o How to Run a Caffe Model
